

## CLAIMS

**WHAT IS CLAIMED IS:**

[c1]

1. A wireless communication system, including:
  - (a) a position location system which determines the position of a terminal within the wireless communication system; and
  - (b) a central call processor, coupled to the position location system, which determines whether the terminal has moved more than a predetermined distance from a predetermined initial location and which prevents communications with the terminal if the terminal has so moved.
